

HYPERR! EPK

HYPER! are a young alternative rock trio based in Ghent, Belgium. The band started having jam sessions in 2015, when its members, then just fourteen years old, found themselves attending the same art school. That escalated quickly. With their no-nonsense rock & roll attitude and energetic live shows, HYPER! are set to become Belgium's next big rock band. Influenced by classic 70s rock and indie rock, they refer to their own stylistic blend as "**tuxedo rock**" with a slice of ADHD, as the three always perform in suits.
